THE LEGACY BEHIND MEACON

A Legacy of Precision and Family Service

ANDRÉ LATEGAN

LAURA LATEGAN

Founding Directors

Meacon was founded in 1992 by André Lategan, with Laura Lategan instrumental in driving sales and establishing trusted relationships within the industry during the 1990s. Together, they laid the foundation for a business rooted in quality, reliability, and personal service.

What began as a small family operation has grown into a trusted name across Southern Africa, with the next generation continuing the mission today—refining, engineering, and supporting every product with pride and care.

For more than 30 years, Meacon has specialised in designing, manufacturing, and servicing funeral equipment that delivers exceptional quality and reliability.

Headquartered in Centurion, Gauteng, we serve funeral homes throughout South Africa and beyond, combining personal service with industry expertise.
